

System Settings

This guide will show you how to access system settings.

Written By: Mosaic Support

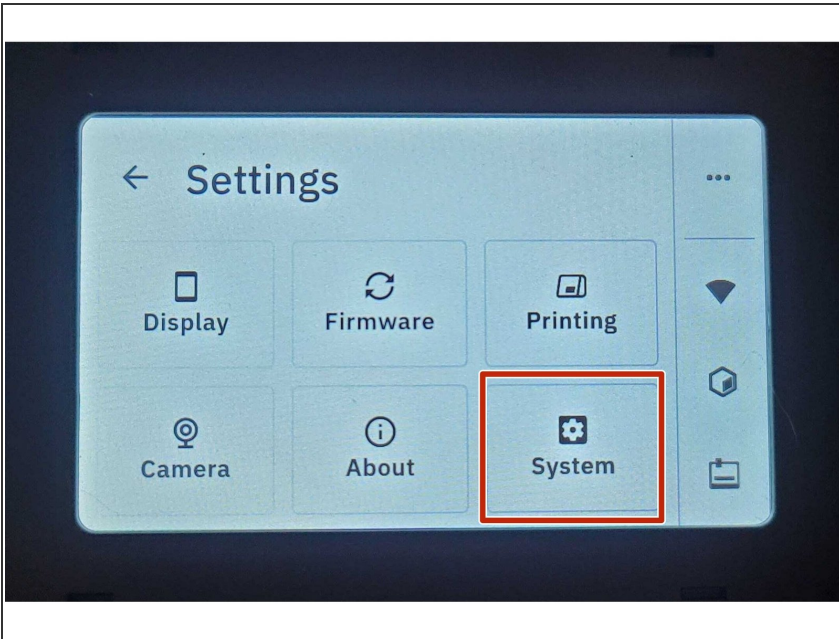

INTRODUCTION

In this guide, you will learn how to:

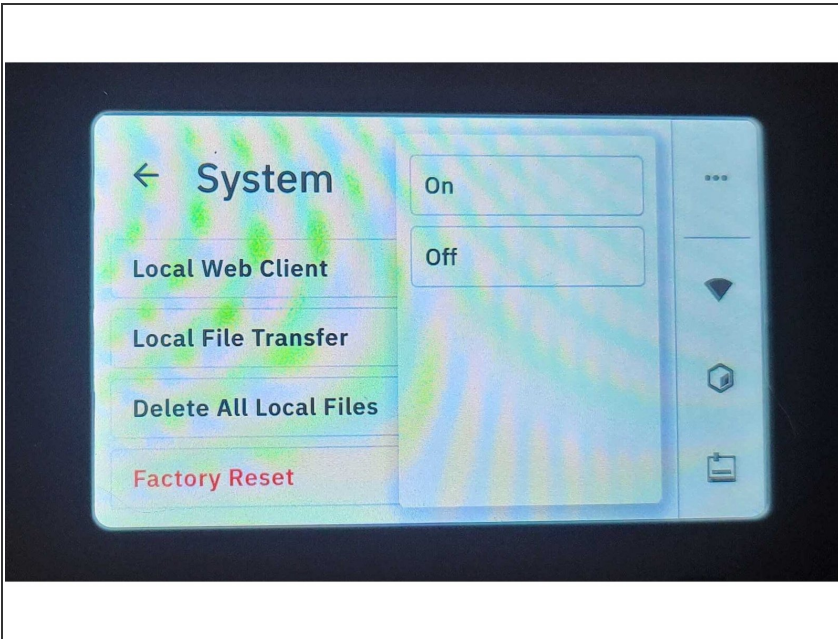

- Disable web client
- Enable local file transfer
- Delete all local files
- Factory reset

Step 1 — Access System Settings

- From Palette's main screen tap *Settings > System*.

Step 2 — Change System Settings

- ❗ **Local Web Client:** allows basic control of the Palette 3's screen via your web browser by accessing <Palette 3 IP address>:5000.
 - To enable/disable this functionality, click *Local Web Client* > *On/Off*
- ❗ **Local File Transfer:** Ability to transfer files to Palette 3 over a local area network
 - To enable/disable this feature, click *Local File Transfer* > *On/Off*
 - **Delete All Local Files:** Click and follow the prompts to delete all logs, print files, camera captures and any other files that are saved in Palette.
 - **Factory reset:** Click and follow the prompts to return your Palette to factory settings and erase all information stored on the device.
