INTRODUCTION

If you are looking to trade projects with a friend or need some advice solving an issue you are running into with your print, this handy Canvas feature is the best way to share your work!

Step 1 — Sharing your Canvas Project

- Open your project

- Use the **share button** located in the top right corner to bring up your sharing options.

- Check any boxes you would like to share. (**Material**, **Style** and **Printer Profiles** can all be shared)

- In the **Sharing type** dropdown, select **Link** to generate a shareable link.

- Press the **Copy Link** button and use it to share your project!
