

# Adding a Palette Profile

This guide will take you through adding a Palette profile to your printer profile on CANVAS.

Written By: Mosaic Support

# CANVAS

## INTRODUCTION

To prepare printing with your Palette, add a Palette profile to your [Printer Profile](#). This can be done when you're setting up the Printer Profile for the first time or can be added after your Printer Profile has been created.

## Step 1 — Adding a Palette or Palette+

### Printer-to-Palette Calibration

Loading Offset

Print Value

[Reload Calibration File](#) 2.50 m total

[Cancel](#) [Save](#)

My Printers > Default Printer > Add Palette

#### Add Palette

Palette allows you to combine rigid, flexible, and soluble filaments all in a single 3D print.  
[Want to learn more about Palette? Click here](#)

#### Palette Settings

Select your Palette

Loading Offset

Print Value

Calibration Length  
 mm

[Not using a Palette](#) [Save](#)

- i** For Palette/Palette+ users, Palette Profiles allow you to assign your calibration values (Loading Offset, Print Value, and Calibration Length) from Chroma to your Printer Profile in CANVAS. You can find these values in Chroma by going to *Profiles > Printer Profiles > Edit*.
- Under the **Palette** tab, select Re-Calibrate Printer with *Palette > I already have values* to access this screen.
- Transpose this information by first going to the **Printer Profiles** menu or starting a new project in CANVAS.
- Select the printer you would like to use with Palette or Palette+.
- Hover over the printer icon and click **Palette**.
- Select whether you're adding Palette or Palette+.
- Enter your calibration values and click Save.
- i** Calibration Length in Chroma is set to metres while this value will need to be converted to millimetres in CANVAS.

## Step 2 — Adding a Palette 2 (S) (Pro)

**Edit Prusa Palette Setup**

Setup Name  
Prusa Palette Setup

**Printer**  
Printer Profile  
Prusa MK3

**Devices**  
Add Device

**LJ5V Hub** Custom Canvas Hub

**Palette 2S Pro**

Connection Mode  
Connected (with Hub)

Extruder for Palette printing  
1

Cancel Save

- Go to the **Setups** page.
- Create a New Setup or edit an existing setup with your printer profile.
- Click the **Add Device** button.
  - If you are using Palette without CANVAS Hub, please select **Accessory**.
  - If you will be using Palette with CANVAS Hub, please select **Connected**.
- Click **Save** to complete the setup.
