

Thermistor Connections

For Errors #103-105, you would need to check that the thermistor is connected properly to your electronics board and hot tool.

Written By: Mosaic Support

Step 1 — Error 103

- Remove Palette's top lid.
- Check that the thermistor is properly connected to the electronics board.

Step 2 — Error 105

- Remove Palette's top lid.
- check that the thermistor is properly connected to Palette's hot tool. This is where the thermistor plugs into the hot tool.
